Senior Engineer,
Flood Risk Management,
Aberdeenshire Council

01681 - Screening - The Aberdeenshire Council - North East Local Flood Risk Management Plan (LFRMP) 2022 to 2028

11th November 2021

Dear Jonathan,

With reference to the Screening document you submitted on 13th October 2021.

The Consultation Authorities have now considered your screening request as per **Section 9(3)** of the **Environmental Assessment (Scotland) Act 2005**. I have attached the individual letters from the Consultation Authorities, outlining their views and opinions.

Please note, these are the views and opinions of the Consultation Authorities on the likelihood of significant environmental effects arising from the plan or programme and not a judgement on whether an SEA is required. It is therefore for the Responsible Authority to determine whether an SEA is required in the circumstances. Where possible the Consultation Authorities may have offered supplementary information and/or advice for you to consider, which you should find helpful.

As the Consultation Authorities have now notified you of their views, you should now refer to the 2005 Act to consider your next step. You should of course take into account the advice offered by the Consultation Authorities.

You should note, as per Section 10 of the 2005 Act, that within 28 days of your determination about whether an SEA is required or not, a copy of the determination and any related statement of reasons must be passed to the Consultation Authorities. This may be done via the SEA Gateway.

If you have any queries or would like me to clarify any points, please call me on 0131 244 0078.

Kind regards,

Clare Donnelly
SEA Gateway Administrator
